

# Oil Spill Science Solution Environment Friendly Solutions

## Industrial Oily Water Treatment Solutions

Self-adjustable weir skimmer for floating oil & chemicals

### THE ULTRASPIN SYSTEM

**GENTLE PUMP**

- Reliable → Proven skimmer and pumping and haulage skills, lowers costs.
- Low shear → Higher oil droplets separation, cleaner water.

**SUPERIZED STRAINER**

- Prevents rags, rubbish and debris → No damage - no downtime.
- High capacity → Quick and easy to perforated and stainless steel mesh.

*UltraSpin*

**THE MIGHTY SEPARATOR**

- Spins out oil droplets → Proven 1000 liter separator to greatly improve systems with 10 gravity separator.
- Simple design → No cleaning, no lids, no wastes.

**THE RECYCLE FEATURE**

- Start-up Timer → Recycle timer of oil recovery prior to discharge.
- Adjustable → Increase recycle time to increase efficiency.

TREATED WATER

**OIL COLLECTION AND DECAN'T TANK**

- Prevents oil spills → Removes all oil impurities, improves environmental services, reduces smells.

**FRIENDLY DESIGN**

- Flas in small spaces, easy to transport → Packaged for easy installation.

AUTOMATIC CONTROLS

**THE SUPERSEPER**

- Large Oil and water separator → Lower frequency of water decant.
- Automatically decant untreated water back to pit for treatment.

**ENVIRONMENTAL FRIENDLY**

- No operators needed, training → Safe for hazardous environments, easy maintenance.
- Fully pneumatic systems → Fully pneumatic systems.

Hydro-Cyclone Oily Water separators
